Building Confident Teams & Inclusive
Workplaces – *For the sector, by the sector*

ABOUT US

Hotel Etico is a multi-award winning not for profit social enterprise hotel employing and training young people with disability. An Australian first. We are a leading provider of disability confidence training designed and delivered by hospitality and disability professionals.

"By the sector, for the sector"

77% of employers want to hire people with disability, but only 35% do —most don't know where to begin. Some of the top barriers cited by employers in hiring people with disability:

- Lack of awareness about people with a disability
- Lack of confidence and a fear of saying or doing the wrong thing
- Perception of cost or complexity*

We partner with industry to access an overlooked talent pool to address workforce shortages, improve staff retention, boost employee engagement and team culture, and, most importantly, create employment pathways and careers for people with a disability.
